

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## P R O O E M I U M.

Ioannis Alberti Fabricii Bibliotheca graeca, opus praecclarum, quod notum est, quantum inter reliqua huius generis libros ardeat, edi est coepta Hamburgi anno MIOCCV, absoluta anno MIOCCXXVIII. XIV. Tom., quaternia. Huius libri praestantia tantam etiam apud exteros gloriam, aequata est, ut bibliopola, divenditis editionis tertiae exemplis, novae editioni non defatigatum esse speraret posteritatis favorem. In repetendo libro ut quae et emendanda essent et addenda accurate praestarentur operam tribuit G. C. Harlesius, qui suam huius literarum generis notitiam egregiis speciminibus comprehenderat. Recognitionem Harlesii institutum esse ad haud infelicem Fabricii aemulationem laus cindebat et nimis frequentia declarant. — Quam Harlesius cunctis in hoc opere socii rationem sequuti sint et quae iis praesidia contigerint, additamenta eorum a Fabricii verbis fere segregata et ordinis argumentorum immutatio tam manifeste indicat adeoque fama est et non celebratum, ut amplius huius rei enarratio hoc loco haud temere videatur omitti. Plus tamen Fabricio fortuna favit in eo, quod ei id est datum, ut ingenium et humanis viribus prope minus opus abolveret et in gloriae quae societatem nominem admitteret. Editio enim Harlesii, cui sumus indicem addituri, XI tantum Fabricii operis volumina repetivit ideoque non complectitur ea, quae duae postremae partes Bibliothecae graecae Fabricii continent. Imperfectum hoc opus redemit Carolus Cneblechius, bibliopola Lipsiensis, industria et liberalitate insignis. Quis ignorat enim editiones Medicorum veterum Graecorum et Corporis, quod dicunt, Iuris, quorum par est amplitudini nitor? Nilis praemissa intercescit, quominus Cneblechius laudem, quam adoperandis praestantissimis operibus ceperat, editionis Harlesianae absolute augeret. Aditarius enim erat duo extrema Fabricii volumina et priorum, quoad id temporis nostri ratio postulare videretur, supplementa et emendationem. Tam insignis viri heredes sentiunt quidem, parem atque patri defuncto se debere reverentiam praestare magnis illis operibus, in quibus quasi vitam suam positam esse volebat, idque inprimis enixe operam dare, ut nihil in iis imperfecti relinqueretur: attamen a Bibliotheca graeca perficienda eos hucusque et ipsius magnitudo et paucitas, eorum prohibuit, qui operi abolvendo pares sint, quod I. A. Fabricius condidit, Harlesius recognovit. Certe tamen quae nunc prospere non cesserunt, ea desinet unquam infestare fortunae incertitas. —

Quod attinet ad ea, quae desunt in editione secunda, eorum haec est ratio, ut a paucis desiderentur. Videtur nobis esse commodum, addere indicem argumentorum, quae a Fabricio illustrata sunt in postremis iis libris, quos non contigit Harlesio, ut recognosceret. Ex hac nostra enarratione patebit, nihil deesse in editione Harlesii, quod sive frequens usus doctorum hominum, sive illustratio praestantiorum veterum scriptorum requirat. Volumen XII. et XIII. Fabricii (Volumen enim XIV. complet Index) haec continent: Editionem Conciliorum Labbei et Harduini; — Catalogum Pontific. roman. ad ductum Dan. Papebrochii, alphabet. et chronolog.; — Epistolas Roman. Pontific. et quae ad eos scriptae sunt; — Demetrii Procopii Maced. Meschopolitae *ἐναγλιθμῶν τῶν κατὰ τὰ ἀρχαῖα αἰῶνα λογίων Ἑρμῆος καὶ περὶ τῶν ἐν τῷ νῦν αἰῶνι ἀθρούντων*; — Indicem in Demetrii Procopii Notitiam recentiorum eruditorum Graecorum; — Indicem Geograph. Episcopatum orbis christiani, tum aliorum, tum quorum in Conciliis mentio; — Mantiasam de recentibus Histor. Eccles. scriptoribus; — de Iureconsultis et iuris graeco-romani legibus atque scriptoribus; de Paulo Aegineta, Alexandro Tralliano et aliis graecis Medicis editis; — de Medicis Anecdota; — Elenchus medicorum veterum; — Ioannis Stephani Theologia Hippocratis; — Paralipomena ad superiores libros. —

Ex his sponte intelligitur Medicorum tantam et Iuriconsultorum veterum inferioris ordinis illustrationem in nostra editione non reperiri. Caetera ab Harlesio aut in prioribus voluminibus posita aut consulto omissa sunt. Res quum sic se haberet, dia animis pendebamus, cum quid esset praesidium, quo commodior redderetur editio Harlesii; tandem indicem Volum. XII., quae ista complectitur, conscribi iussimus. In quo apparando maxima diligentia adhibita est; aemulati sumus Fabricium, cuius index, etsi errores et menda ab eo omnino non absint, insignem ipsius Bibliothecae diligentiam strenue imitatur. Sedulo curavimus, ne quid omitteretur et notarum Harlesii argumenta praecipua in Indice collegimus. Nominum in postremis partibus Bibliothecae Fabricii eo maior est copia, quo potius poterant referri de istis inferioris ordinis hominibus, quorum fata et scripta in fine operis sui Fabricius illustravit. Contigit denique typothetis (nostra enim aetate maior eorum est in compingendis typis densitas), ut in paucis plagulis commodum satis et perfectum indicem typis exscriberent.
